Unable to terminate instance

Failed to terminate an instance. The instance 'i-0a378ecc0300074da' may not be terminated. Modify its 'disableApiTermination' instance attribute and try again.

Instances (1/1) Info

Name: Web-Server Instance ID: i-0a378ecc0300074da Instance state: Running Instance type: t2.nano Status check: - Availability Zone: us-east-1a Public IPv4 DNS: ec2-54-236-4-137.com... Public IPv4 IP: 54.236.4.137 Elastic IP:

Change termination protection

To prevent your instance from being accidentally terminated, you can enable termination protection for the instance. Learn more

Instance ID: i-0a378ecc0300074da (Web-Server)

Termination protection

Enable

Termination protection disabled.

The instance is no longer protected against accidental termination. If the instance is terminated, all data and general storage is lost.

Cancel Save

The instance has now successfully terminated.
